

THE UNIVERSITY OF BIRMINGHAM  
School of Computer Science

REQUEST FOR PUBLIC WORLD WIDE WEB PAGES

**Username:** \_\_\_\_\_ **Degree course:** \_\_\_\_\_ **Year of Study:** \_\_\_\_

I request the inclusion of my username on the `studentweb.cs.bham.ac.uk` web server.

I understand that this will allow unlimited public access to any documents I place in a directory named `public_html` within my Unix home directory.

I will ensure only acceptable material is put in this directory. I understand that unacceptable material includes, but is not restricted to:

- Copyright material for which the explicit written permission of the copyright owner has not been obtained.
- Material which is defamatory of any person or organisation.
- Offensive material (such as pornography or incitement to racial hatred or personal abuse).
- Any material used for commercial purposes.
- Any material that because of its appearance or content might be misinterpreted as an official University document.

I agree that all documents placed in this directory will contain a clear statement of authorship by me (typically with a link to my home page or email address).

**Signature:** \_\_\_\_\_ **Date:** \_\_\_\_\_

Once completed, post this form in the pigeonhole labelled "World Wide Web Application Forms" outside the School Office.

PLEASE ALSO RETAIN A COPY OF THIS FORM FOR YOUR OWN REFERENCE
